# DealCentre™ for Technology, Media and Telecom

## Growth at the speed of technology

In the swiftly moving Technology, Media and Telecom sector, very little is certain other than the pace of change. There's a constant a sense of urgency to innovate. To disrupt. To separate yourself from the pack. Whether it's protecting your own IP or seeking new ideas to bolster your market position, it's critical to choose a Virtual Data Room (VDR) provider with a demonstrated track record of success in TMT transactions.

### Technology moves fast. Move faster.

Accelerate your timetable and maintain your competitive edge with:

- World class, best-in-industry data security to protect your valuable IP
- Dedicated Global Services Group with over 25 years of TMT deal experience
- Flexible platform specifically designed to simplify and speed TMT deals to completion
- Artificial Intelligence (AI)-powered innovations like integrated AI redaction to accelerate your process
- Advanced features like Q&A and our proprietary mobile app that allow you to get your deal done – anytime, anywhere

### You know your space. So do we.

Having successfully completed deals of all sizes in the TMT segment, we know exactly what's needed to maximize your M&A, partnership, fundraising and reporting opportunities.

- **M&A** – Align business ambitions through due diligence and targeted acquisitions to establish powerful synergies and unlock future growth
- **Partnerships** – Leverage existing and new IP to identify potential partner or license arrangements that allow you to penetrate new markets, diversify product offerings and more
- **Fundraising** – Accelerate your capital raise process by opening the door to new investors
- **Reporting** – Collaborate seamlessly with multiple stakeholders through every stage of your growth lifecycle

**Named winner of**  
2022 Fortress Cyber Security  
Award for Data Protection
